**SUSTAINABILITY IS THE SINGLE MOST
IMPORTANT ASPECT WHILE DESIGNING. IT
DRIVES OUR ENTIRE PROCESS AT SOLLI
CONCEPTS – FROM START TO FINISH.
WE USE PRODUCTS THAT ARE SOURCED
LOCALLY AND ETHICALLY.**

Preserve Imperfections

At the core of Solli Concepts is Sohel's dedication of not introducing any waste into the environment. He is the modern day woodcutter, who creates bespoke timber furniture. His designs reflect his belief that the best way to be responsible is to build products that last through generations. Sohel is known for his reverence towards the natural contours and grains of wood. His designs accentuate and preserve cracks, grains and natural blemishes.
